

**Pierre Philip (MD, PhD):**

Prof. Pierre Philip is a psychiatrist. He is head of the sleep clinic at Bordeaux University Hospital and of the CNRS research unit "sleep attention and neuropsychiatric disorders", and scientific coordinator of the CHU Bordeaux DRCI. He is currently head of a "Groupement de Recherche" Project (CNRS initiative) on sleep disorders and excessive daytime sleepiness. He has more than 160 international publications and has conducted many national and international clinical trials. He is the key opinion leader in the field on excessive day time sleepiness.

**Liis Linde:**

Liis is a speech and language pathologist and myofunctional therapist at Unimed Clinics in Tartu since 2015. She works with children and adults who have speech, language and communication problems, voice disorders, dysphagia, myofunctional disorder (infantile swallowing, incorrect tongue resting position, atypical swallowing pattern, mouth breathing) or obstructive sleep disorder.

**Heisl Vaher (MD):**

Dr. Heisl Vaher is head of the Nordic Sleep Center. Her specific field of interest is long lasting consequences of obstructive sleep apnea in adults and children. She has graduated as an ENT specialist (University of Tartu), she is a certified sleep physician (ESRS). In everyday practice she brings together different fields of medicine to solve sleep disorders in multidisciplinary mode.

**Katrin Sonn (MD):**

Dr. Katrin Sonn is a neurologist with clinical interest in sleep medicine and headache disorders. Dr Sonn has a background in basic pharmacology and has co-authored several publications on molecular mechanisms of brain injury and neuroprotection.

As a member of sleep centre team, Dr. Sonn focuses on sleep-related neurological disorders and neurological sequelae of sleep-disordered breathing.
